# INDEX TO VOLUME CII.

**Abbot, S. L.** Hydrophobia, 489.
**Adams, B. F. D.** Case of abdominal tumor with ascites, 517.
**Amsterdam.** The medical congresses at Amsterdam and Baden-Baden, 212.
**Anatomy.** Recent progress in anatomy, Dwight, T., 220
**Anthony, W. E.** Inebriety, 12.
**Army.** Contract surgeons, 378.
**Arnold, G. J.** Cases at the Boston City Hospital, 81 chronic rheumatic arthritis and fibrinous renal calculi, 348.
**Arnold, J. W. S.** The graphic method as applied to physiological investigation, 109.
**Ayer, J. B.** Scarlet fever, 467; empyema, antiseptic operation, 539.

**Baden-Baden.** The medical congresses at Amsterdam and Baden-Baden, 212.
**Bahnson, H. T.** The medical law of North Carolina, 380.
**Baker, W. H.** Cystocele, 11; recent progress in gynæcology, 33.
**Baltimore.** Letter from Baltimore, 476.
**Barker, F.** Malarial puerperal fever, 251.
**Bartholow, R.** Case of typhoid fever, and the so-called specific treatment, 169.
**Battey, R.** New method of intra-uterine medication, 477.
**Beach, H. H. A.** Antiseptic surgery, 35; innominate aneurism, 249; a new antiseptic, 249; recovery from severe injuries, 250; recent progress in surgery, 535.
**Becker, A. R.** Puerperal convulsions, 126.
**Becker, Otto.** Case of congenital unilateral color-blindness, 441.
**Bibliography.** Establishment of a Medical Library in Rhode Island, 12; Hofmann, K. B., and Ultzmann, R., Guide to the Examination of the Urine, 13; Harlan, G. C., American Health Primers, Eyesight, and How to Care for it, 13; Association of Medical Officers of American Institutions for Idiotic and Feeble-Minded Persons, Proceedings, 14; Holden, J., and Langton, J., Manual of the Dissection of the Human Body, 14; Thompson, H., Clinical Lectures on Diseases of the Urinary Organs, 14; Landolt, E., a Manual of Examination of the Eyes, 15; Clifford, W. L., Nature Series, Seeing and Thinking, 15; Day, H., Observations and Comments on Certain Convulsive Disorders, 15; Brown, F. H., The Medical Register for New England, 15; Mays, T. J., Consumption, and How to Prevent It, 15; Fenwick, S., Outlines of the Practice of Medicine, 39; Playfair, W. S., a Treatise on the Science and Practice of Midwifery, 63; Roberts, F. T., The Theory and Practice of Medicine, 63; Harvey, A., First Lines of Therapeutics as Based on the Modes and the Processes of Healing as Occurring spontaneously in Disease, and on the Modes and the Processes of Dying as Resulting naturally from Disease, 63; The Second Medical Volume of the Medical and Surgical History of the War of the Rebellion, 64; Bumstead, F. J., The Pathology and Treatment of Venereal Diseases, 86; Keating, J. M., With General Grant in the East, 87; Transactions of the American Medical Association, vol. xxx., 1879, 88; Proceedings of the New Hampshire Medical Society, 89; Transactions of the Medical Association of the State of Missouri, 92; The American Journal of Otology, 110; Earle, P., Studies Relating to the Curability of Insanity, 111; Charcot, J. M., Lectures on the Diseases of the Nervous System, 136; Cutter, E., Primer of the Clinical Microscope, 136; Bristowe, J. S., a Treatise on the Theory and Practice of Medicine, 136; Mertz, A., Elements of Modern Chemistry, 159; Fox, G. H., Photographic Illustrations of Skin Diseases, Parts V. and VI., 159; Elsberg, L., The Structure and other Characteristics of Colored Blood Corpuscles, 159; Annual Report of the Marine Hospital Service, 160; American Ophthalmological Society, Transactions, 182; White, J. W., The Mouth and Teeth, 183; Guy's Hospital Gazette, 184; Klein, E., and Smith, E. N., Atlas of Histology, 206; Beale, L. S., How to Work with the Microscope, 207; Annals of the Anatomical and Surgical Society, 207; Wood, H. C., Brainwork and Overwork, 207; Cutter, G. R., A Dictionary of the German Terms used in Medicine, 232; Sanderson, J. B., Syllabus of a Course of Lectures on Physiology, 232; Sparks, E. I., The Riviera, Sketches of the Health Resorts on the North Mediterranean Coast of France and Italy, from Hyères to Spezia, 232; Flückiger, F. A., and Hanbury, D., Pharmacographia, a History of Drugs of Vegetable Origin met with in Great Britain and British India, 254; Cornil, V., and Ranvier, L., A Manual of Pathological Histology, 255; The Alienist and Neurologist, 255; Foster, M., A Text-Book of Physiology, 255; Gowers, W. R., Pseudo-Hypertrophic Muscular Paralysis, 279; Osborn, S., Notes on Diseases of the Testis, 279; Morris M., Skin Diseases, including their Definition, Symptoms, Diagnosis, Prognosis, Morbid Anatomy, and Treatment, 279; Roberts, W., Urinary and Renal Diseases, 303; The North American Review, 303; Routh, C. H. F., Infant Feeding and its Influences on Life, 326; Maudsley, H., The Pathology of Mind, 350; Huxley, T. H., The Crayfish, an Introduction to the Study of Zoölogy, 351; Lombard, J. S., Experimental Researches on the Regional Temperature of the Head, 352; Ellis, C., Bibliography of Albuminuria, 361; Medical and Surgical History of the Rebellion, 380; Supplementary Report of the Health Department of the Board of Health, Lunacy, and Charity, 378; Leonard, C. H., The Hair, its Growth, Care, Diseases, and Treatment, 399; Galabin, A. L., Student's Guide to the Diseases of Women, 399; Reynolds, J. R., A System of Medicine, vols. i., ii., 423; MacMunn, C. A., The Spectroscope in Medicine, 423; Croom, J. H., Minor Gynæcological Operations and Appliances, 423; Sturgis, F. R., The Student's Manual of Venereal Diseases, 447; Bemiss, J. H., A Few Cases of Leprosy, 448; Keyes, E. L., The Venereal Diseases, including Stricture of the Male Urethra, 470; Whittaker, J. T., Student's Primer on the Urine, 470; Amidon, R. W., A new Study of Cerebral Cortical Localization, 495; West, Charles, Lectures on the Diseases of Women, 495; Darling, William, and Ranney, A. L., The Essentials of Anatomy, 495; Roberts, J. B., Paracentesis of the Pericardium, 519; Wilson, John, Health and Health Resorts, 520; Fox, G. H., Photographic Illustrations of Skin Diseases, Parts VII.–XII., 520; Atkinson, W. B., The Therapeutics of Gynæcology and Obstetrics, 520; Klein, E., and Smith, E. N., Atlas of Histology, Part X., 520; Adelmann, G. F. B., History and Statistics of Partial and Complete Resections of the Scapula, 542; Foster, M., A Text-Book of Physiology, 543; Wilson, George, A Hand-Book of Hygiene and Sanitary Science, 543; Semple, C. E. A., Aids to Materia Medica and Therapeutics, 588; Shaffer, N. M., The Hysterical Element in Orthopædic Surgery, 588; Granville, J. M., Common Mind Troubles and the Secret of a Clear Head, 589.
**Bigelow, H. J.** Litholapaxy, 30, 38; litholapaxy, rupture of a tendon, tumors upon the sternum, 217.
**Biography.** Clapp, S., 12; Waters, G. F., 22; Clough, J., 120; Hebelin, G., 185; White, R., Jr., 234; Washington, G., 381; Sayre, C. H., 403; Hall, A. B., 451; Choppin, S., 452; Fairchild, I., 528; Wells, S., 17; Taylor, J. W., 90; Bowditch, H. I., 137, 138; Neill, J., 208; Wood, W. M., 240; Clarke, H., 400, 475; McDowell, J. J., 427; Ordway, J. P., 451; Johnson, H., 456; Hun, E. R., 308; King, James, 309; Corrigan, D. J., 329; Comstock, W. W., 584; Hall, J. C., 621.
**Blake, C. J.** Children's earache, 130.
**Boardman, W. E.** Some observations on the treatment of uterine displacements, 249; epithelioma of the cervix removed by curette and scissors, 301.
**Bolles, W. P.** Recent progress in materia medica and pharmacy, 198; Cases of Colles's fracture, 250.
**Bowditch, H. I.** Sanitary organization of nations, 25; Dr. Bowditch's retirement from the Massachusetts Board of Health. Letter of resignation from the Massachusetts Board of Health, 143.
**Boyland, G. H.** The Johns Hopkins University and higher education, with a glance at the hospital buildings, 97; a remarkable case of gastrotomy, 593.
**Bradford, E. H.** Club foot and hand, 227; torticollis successfully treated by Delore's method, 322; submormal temperature, 346; recent progress in orthopædic surgery, 370; treatment of Pott's disease by the plaster-of-Paris jacket, 459.
**Breast.** Carcinoma of the mammary gland, Gross, S. W., 289.
**Brockway, C. H.** A remarkable case of carcinoma, 246.
**Bronson, J. R.** The admission of women to the Massachusetts Medical Society, 213.
**Brown, F. F.** A case of attempted suicide by chloral hydrate, suicide by cantharides, 197.
**Brown, F. H.** Impacted foreign bodies in the external auditory meatus, 321.
**Brown, Ira.** Recto-vaginal fistula cured without operation, 501.
**Brown, M. L.,** a fatal case of fatty embolism, 584.
**Bryant, T.** Mr. Bryant and antiseptic surgery, 238.
**Buckingham, E. M.** Difficult dentition, 3, 322.
**Buckler, T. H.** On strangulated veins of the uterus and the importance of restoring their circulation and function of drainage, thereby preventing engorgement and morbid nutrition, 53, 74.
**Bulkley, L. D.** Case of multiple melano-sarcoma of the skin, 218.
**Bush, J. F.** A case of abortion, with instrumental delivery, and death on the fourth day following, 346.
**Byford, W. H.** Displacement of the ovaries, 433; diagnosis of ovarian tumor, 457.

**Cabot, A. T.** Cases of empyema, 347, 376.
**Caswell, E. T.** Litholapaxy, 101; fractures at the Rhode Island Hospital, 505.
**Cellular Tissue.** Diseases of the, 59; obesity, 430.
**Chadwick, J. R.** Hot rectal douche, 349.
**Chandler, T. H.** Vaseline ointments, 599.
**Channing, W.** Recent progress in insane asylum management, 243; the study of psychological medicine, 315.
**Chemistry.** Recent progress in medical chemistry, Hills, W. B., 127; determination of urea, Williams, F. H., 493.
**Child, W.** Jaborandi, 71; country practice, lead poisoning, 190.
**Children.** Difficult dentition, Buckingham, E. M., 3; scarlatina, Leonard, C. H., 12; infantile convulsions, McClean, A. S., 22; recent progress in the treatment of children's diseases, Hayden, D. H., 57, 79; children's earache, Blake, C. J., 130; the Children's Hospital in Boston, 138; treatment of paralysis in early life, Davis, H. G., 293; dislocation of the sternal end of the clavicle in a child ten months old, Wright, T. R., 333; obscure local trouble in the region of the sternum in a child, Hodgdon, R. L., 518; near sight in the young, Webster, D., 600.
**Chisolm, J. J.** A piece of metal twenty-three years in the eye without causing sympathetic ophthalmia, 248.
**Circulatory System.** On strangulated veins of the uterus, Buckler, T. H., 53; phlebitis of the right lateral sinus and emissary mastoid vein, Green, J. O., 59; recent progress in the treatment of thoracic diseases, Knight, F. I., 152, 171; rapid pulse and high temperature as symptoms of puerperal inflammation, Minot, F., 177; innominate aneurism, Beach, H. H. A., 249; extensive venous thrombosis, Marion, H. E., 350; the presphygmic interval or time required to start the arterial pulse after the beginning of the systole of the ventricle, Keyt, A. T., 409; the compound sphygmograph, Keyt, A. T., 484; a fatal case of fatty embolism, Brown, M. L., 584; malformation of left auricle, Roach, P., 598.
**Clark, F. C.** Notes on four cases of cerebro-spinal meningitis, 36.
**Clark, H. G.** In regard to fees, 599.
**Clarke, Henry.** Cases of ovariotomy, 344.
**Correspondence.** Letter from Portland, 20; medical college deadheadism, Wolverine, 46; letters from Philadelphia, 69, 285; the sensibility of articular surfaces, James, W., 94; the National Board of Health, 94; the pills of power, 95; Dr. Bowditch's retirement from the Massachusetts Board of Health, 138; letter from Dr. Polk, Edes, R. T., 143; Dr. Bumstead's new departure on the chancroid, Greenough, F. B., 163; the future of woman, 166; a day in New York, 188; letter from New Orleans, the Auxiliary Sanitary Association, 189; country practice, lead poisoning,

W. Child, 199; elephant breeding, 309; sea-side ethics, 236, 283, 309; the new code, 331; letters from St. Louis, 454, 476; the decennial convention for revision of the Pharmacopœia, 474; letter from Baltimore, 476; letter from New York, 574.

**Cowles, E.** Non-restraint in English and Scotch asylums, 574.

**Curtis, H.** Medical cases in the service of Dr. Hall Curtis, 465.

**Curtis, T. B.** Recent progress in urinary surgery, 316; sudden and transient swellings of the lips, 445, 556.

**Cushing, B.** The commitment of the insane, 92.

**Cushing, E. W.** Law to regulate the practice of medicine, 180.

**Cutaneous System.** Eruption following the use of salicylate of soda, 22; case of multiple melano-sarcoma of the skin, Bulkley, L. D., 218; recent progress in dermatology and syphilis, Wigglesworth, E., 394, 419; case of rodent ulcer, ligature of carotid artery, recovery, Irwin, F., 609.

**Cutler, E. G.** Pathological changes in septicæmia and pyæmia, 302; recent progress in pathology and pathological anatomy, 463, 485.

**Da Costa, J. M.** A case of Graves's disease (exophthalmic goitre), with remarks upon its pathology, ætiology, and treatment, 337; parotid swelling after typhoid fever, 340.

**Dale, J. T.** A new remedy in the treatment of diabetes, 216.

**Davenport, B. F.** Recent progress in pharmaceutical preparations, 514.

**Davis, H. G.** Treatment of paralysis in early life, 263.

**Davis, W. B.** Intestinal obstruction, 193, 201.

**Derby, H.** On the prevention of near-sight in the young, 533, 538, 620.

**Didama, H. D.** Medical education in the United States, 506.

**Digestive System.** Difficult dentition, Buckingham, E. M., 3; parotitis in fevers, Lyman, G. H., 135; intestinal anti-peristalsis, 214; intestinal obstruction, Davis, W. B., 193, 201; forced alimentation, Hutchins, A., 222; herniotomy, Porter, C. B., 227; death from impacted gall-stones, Galloupe, I. F., 262; the treatment of irreducible hernia, Warren, J. C., 276; urgent vomiting in pregnancy, Minot, F., 302; difficult dentition, Buckingham, E. M., 322; parotid swelling after typhoid fever, Da Costa, J. M., 340; sudden and transient swellings of the lips, Curtis, T. B., 445, 556; the radical cure of hernia, Warren, J. H., 492; intestinal obstruction, Fifield, W. C. B., 540.

**Draper, F. W.** Recent progress in forensic medicine, 166; sacculated bladder, 323.

**Ductless Glands.** A case of Graves's disease (exophthalmic goitre), Da Costa, J. M., 337.

**Dwight, T.** Recent progress in anatomy, 220.

**Ear.** Children's earache, Blake, C. J., 130; impacted foreign bodies in the external auditory meatus, Brown, F. H., 321; necrosis of the inner table of the mastoid and caries of the tympanum, Green, J. O., 324; necrosis of the tympanum, with destruction of both labyrinths, Green, J. O., 325; caries of the mastoid, Green, J. O., 325; foreign bodies in the ear, Green, J. O., 374; affections of the middle ear during the early stages of syphilis, Sturgis, F. R., 531; report on the progress of otology, Green, J. O., 611.

**Edes, R. T.** The relation of drug manufacturers to the progress of therapeutics, 48, 60; letter from Dr. Polk, 143; abscess of the brain, 447; some of the symptoms of Bright's disease, 601.

**Editorials.** Introductory, 16; the Bellevue Training School for Nurses, 16; codes of ethics, 40; the second medical volume of the Medical and Surgical History of the War of the Rebellion, 64; Harvard University and female physicians, 88; the transactions of the American Medical Association, vol. xxx., 1879, 88; the New Hampshire Medical Society, 89; report of the health officer of the port of New York, 112; diphtheria, a circular of the Boston Board of Health, 113; Dr. Bowditch's retirement from the Massachusetts Board of Health, 137; the children's hospital in Boston, 138; ethics and women, 160; annual report of the marine hospital service, 160; a proposed act to regulate the practice of medicine in Massachusetts, 164; examinations for color-blindness and defective sight among railroad employés, 208; John Neill, M. D., 208; the New York State Board of Charities, 209; medical charities and the profession, 233; the new code of ethics of the Massachusetts Medical Society, 256; lunacy reform, 257; stone in the bladder, litholapaxy, 258; the duty on quinine, 259; health of large English towns, 259; model school-houses, 280; the argument of the counsel for the Social Science Association before the joint legislative committee on public health, 304; medical practice on the stage, 306; the alcohol question from a medical point of view, 328; the administration of charities in New York, 353; further progress in medical education, 377; sale of diplomas by fraudulent corporations, 377; the supplementary report of the Health Department of the Board of Health, Lunacy, and Charity, 378; contract surgeons, 378; health legislation at Washington, 400; an unusual mode of suicide, 424; speculation in opium, 425; the Warren prize, 426; insane asylums in the United States, 449; first annual report of the Board of Health of the taxing district of Shelby County (city of Memphis), 450; production of sex at will, 471; second annual report of the Connecticut Board of Health; seventh annual report of the Board of Health of the City of New Haven, 472; the State Board of Health, Lunacy, and Charity, 497; the physiological laboratory at Harvard, 497; a special instructor in hygiene in the public schools of Boston, 521; suits for fees, 522; the meeting in New York, 544; annual meeting, 568; a convalescent hospital, 590; a singular case of epidemic in Berkshire County, 617; the discussion on the appropriation for the National Board of Health, 617; an excited reviewer, 618.

**Ellis, C.** The significance of albuminuria as a symptom, 323, 361, 388, 414.

**Engelmann, G. J.** The posture of women during labor, 598.

**Evans, J. H.** Gritti's supra-condyloid amputation of the thigh, 21.

**Eye.** Neurotomy of the optic and ciliary nerves as a substitute for enucleation of the eyeball, Williams, H. W., 73, 83; examinations for color-blindness, Magnus, H., 117; examinations for color-blindness and defective sight among railroad employés, 208; neurotomy, Williams, H. W., 226; a piece of metal twenty-three years in the eye without causing sympathetic ophthalmia, Chisolm, J. J., 248; permanent closure of the palpebral aperture, Streatfield, J. F., 262; glaucoma, Williams, H. W., 278; bony formations in the eyeball, Jeffries, B. J., 278; case of congenital unilateral color-blindness, Becker, Otto, 441; peculiar affection of ocular muscles, Wadsworth, O. F., 446; color-blindness, Wadsworth, O. F., 526; color-blindness, Jeffries, B. J., 455, 493; hypnotic color-blindness, 526; on the prevention of near-sight in the young, Derby, H., 533, 538; Near-Sight in the Young, Webster, D., 600.

**Field, C. C.** A case of tetanus, recovery after seven weeks, 536.

**Fifield, W. C. B.** Intestinal obstruction, 540.

**Fisher, T. W.** Agoraphobia, 375; the commitment and certification of the Insane, 578.

**Fitz, R. H.** Monstrosity, 135.

**Folsom, C. F.** Typhoid fever, 227; cases of insanity and of fanaticism, 265; lecture on insanity, 481.

**Forest, W. E.** Remarkable resuscitation, 429.

**Francis, G. E.** The admission of women to the Massachusetts Medical Society, 213.

**Galloupe, I. F.** Death from impacted gall-stones, 262; case of cyclops, 496.

**Garland, G. M.** Prolapsed funis, 227; the principle of the siphon applied to thoracentesis, 575; recent progress in physiology, 458.

**Gay, C. S. F.** Refracture for the correction of deformity from the malunion of bone, 226.

**Gay, G. W.** Cases treated by the Lister method, 8.

**General Diseases.** Scarlatina, Leonard, C. H., 12; diphtheria, a circular of the Boston Board of Health, 113; clinical lecture on the physiological pathology of syphilis, Otis, F. N., 121; parotitis in fevers, Lyman, G. H., 135; Dr. Bumstead's new departure on the chancroid, Greenough, F. B., 163; case of typhoid fever, and the so-called specific treatment, Bartholow, R., 169; a new remedy in the treatment of diabetes, Dale, J. Y., 216; case of multiple melano-sarcoma of the skin, Bulkley, L. D., 218; so-called galloping syphilis, Sturgis, F. R., 224; the prevention of certain zymotic diseases, Peters, J. C., 225; typhoid fever, Folsom, C. F., 227; a remarkable case of carcinoma, Brockway, C. H., 246; a case of typhoid fever during pregnancy, Hardon, V. O., 247; malarial puerperal fever, Barker, F., 251; carcinoma of the mammary gland, Gross, S. W., 289; epithelioma of the cervix removed by curette and scissors, Boardman, W. E., 301; fibroid tumor of the uterus, Putnam, J. J., 302; pathological changes in septicæmia and pyæmia, Cutler, E. G., 302; parotid swelling after typhoid fever, Da Costa, J. M., 340; diphtheria, with long period of incubation, Wells, F., 346; chronic rheumatic arthritis and fibrinous renal calculi, Arnold, G. J., 348; case of malignant disease of the uterus, Morrill, F. G., 373; recent progress in dermatology and syphilis, Wigglesworth, E., 394, 419; scarlet fever, Ayer, J. B., 467; hydrophobia, Abbot, S. L., 480; rapid death in the early stages of diphtheria, Nichols, A. H., 491; affections of the middle ear during the early stages of syphilis, Sturgis, F. R., 531; the ætiology of fever, Walton, G. L., and Witherle, C. B., 553.

**Generative System.** Cystocele, Baker, W. H., 11; recent progress in gynæcology, Baker, W. H., 33; on strangulated veins of the uterus, Buckler, T. H., 53, 74; ovarian cysts, Homans, J., 59, 227; antiquity of intra-uterine injections, Hosmer, A., 63; ovariotomy, Homans, J., 85; mechanical compression in orchitis, White, O. A., 99; clinical lectures on diseases of women, Thomas, T. G., 105; Scanzoni in rhyme, 214; Thomas Keith and ovariotomy, 221; some observations on the treatment of uterine displacements, Boardman, W. E., 249; ovariotomy, Homans, J., 278; on certain uterine displacements, Wing, C. E., 298; cases in the service of Dr. G. H. Lyman, 319; epithelioma of the cervix removed by curette and scissors, Boardman, W. E., 301; fibroid tumor of the uterus, Putnam, J. J., 302; partial paralysis and want of coördination from irritation of the genital organs, Sayre, L. A., 312; cases of ovariotomy, Clarke, H., 344; hot rectal douches, Chadwick, J. R., 349; case of malignant disease of the uterus, Morrill, F. G., 373; two cases of hystero-neurosis, Lyman, G. H., 440; diagnosis of ovarian tumor, Byford, W. H., 457; uterine and vaginal injections, Richardson, W. L., 443; production of sex at will, 471; new method of intra-uterine medication, Battey, R., 477; recto-vaginal fistula cured without operation, Brown, I., 501; cerebral hæmorrhage and fibrous tumors of the uterus, Shattuck, G. C., 539; the proper use of the hot vaginal douche, Wing, C. E., 583.

**Gray, J. P.** Use of hyoscyamia in insanity, 204.

**Green, C. M.** Puerperal tetanus, 493.

**Green, J. O.** Phlebitis of the right lateral sinus and emissary mastoid vein, 59; necrosis of the inner table of the mastoid, and caries of the tympanum, 324; necrosis of the tympanum, with destruction of both labyrinths, 325; caries of the mastoid, 325; foreign bodies in the ear, 374; Report on the progress of otology, 611.

**Greenough, F. B.** Dr. Bumstead's new departure on the chancroid, 163.

**Griffith, M. M.** Crude petroleum in asthma, 453.

**Gross, S. W.** Carcinoma of the mammary gland, 289.

**Ham, O. F.** A case of pyelo-nephritis, 597.

**Hamilton, A. McL.** Use of nitrous oxide gas in certain diseases of the nervous system, 469.

**Hamilton, J. B.** The metric system in the marine hospital service, 546.

**Hamilton, S. N.** Absence of amniotic fluid, 23.

**Hardon, V. O.** A case of typhoid fever during pregnancy, 247.

**Harris, F. A.** Case of carbolic-acid poisoning, 494.

**Hatfield, M. P., and Park, R.,** The abuse of medical charities.

**Hayden, D. H.** Recent progress in the treatment of children's diseases, 57, 79.

**Hill, H. E.** Three cases of litholapaxy, 201.

**Hills, W. B.** Recent progress in medical chemistry, 127.

**Hodgdon, R. L.** An obscure local trouble in the region of the sternum in a child, 518.

**Hodges, R. M.** Concussion of the spine, so called, 132.

**Homans, J.** Ovarian cysts, 59, 227, 447; ovariotomy, 85, 278; operating table, 447.

**Hosmer, A.** Teratoma, 61; antiquity of intra-uterine injections, 63.

**Hunt, D.** The proposed medical act, 213.

**Hunter, C. F.** The leather jacket in the treatment of spinal curvature, 582.

**Hutchins, A.** Forced alimentation, 222.

**Hygiene, Health, and Boards of Health.** Sewerage, Noyes, R. F., 12; sanitary organization of nations, Bowditch, H. I., 25; report of the health officer of the port of New York, 112; diphtheria, a circular of the Boston Board of Health, 113; Dr. Bowditch's retirement from the Massachusetts Board of Health, 137, 138; health of large English towns, 259; model school-houses, 280; the National Board of Health, 498; health legislation at Washington, 400; a bill to increase the efficiency of the National Board of Health, 405; report of the Board of Health of Memphis, Tenn., 450; report of Connecticut Board of Health, 472; report of Board of Health of New Haven, 472; the State Board of Health, Lunacy, and Charity, 497; a special instructor in hygiene in the public schools of Boston, 521.

**Instruments and Apparatus.** Pond's sphygmograph, 104; nasal probes, Theobald, T., 333; a new vermicular sound and catheter, Warren,

J. H., 357; Thomas's orthopædic splints, Post, A., 374; the compound sphygmograph, Keyt, A. T., 484; operating table, Homans, J., 447; the leather jacket in the treatment of spinal curvature, Hunter, C. T., 582.
**Irwin, Fairfax.** Case of rodent ulcer, ligature of carotid artery, recovery, 609.

**James, W.** The sensibility of articular surfaces, 94.
**Jeffries, B. J.** Bony formations in the eyeball, 278; color-blindness, 455, 463; hypnotic color-blindness, 526.
**Jewett, G.** The Hayden case, 148; poisoning by oil of tansy, 237.
**Jurisprudence.** Medical law, 13; the commitment of the insane, Cushing, B., 32; recent progress in forensic medicine, Draper, F. W., 193; suicide by chloral, suicide by cantharides, Brown, F. F., 197; the Hayden case, Jewett, G., 148; law to regulate the practice of medicine, Cushing, E. W., 180; a proposed act to regulate the practice of medicine in Massachusetts, 181, 191; summary of important points in the Stannard case as established by medical evidence, Peckham, C. T., 197; an unusual mode of suicide, 424.

**Kane, H. H.** Hydrate of chloral, 429.
**Keith, T.** Thomas Keith and ovariotomy, Sims, J. M., 221.
**Keyt, A. T.** The presphygmic interval or time required to start the arterial pulse after the beginning of the systole of the ventricle, 409; the compound sphygmograph, 484.
**Knight, F. I.** Recent progress in the treatment of thoracic diseases, 152, 171; the dangers of thoracentesis and injections into the pleural cavity, 397.

**Lawrence, R. M.** The inhalation of ethyl iodide for the relief of dyspnœa, 428.
**Leaming, J. R.** Endemic pleuro-pneumonia as seen in New York during the past ten or twelve years, 205.
**Leonard, C. H.** Scarlatina, 12.
**Life Insurance.** One thousand deaths in a life-insurance company, Seaverns, J., 341; life insurance run mad, 382.
**Lister.** Antiseptic surgery, 116, 140.
**Local Injuries.** Rupture of a tendon, Bigelow, H. J., 217; cases of Colles's fracture, Bolles, W. P., 250; dislocation of the sternal end of the clavicle in a child ten months old, Wright, T. R., 333.
**Locomotion, Organs of.** Pott's disease of the spine, Sayre, L. A., 1, 145; sensibility of articular surfaces, James, W., 94; lateral curvature of the spine, Sayre, L. A., 221; torticollis successfully treated by Delore's method, Bradford, E. H., 322; fibrous anchylosis successfully treated by the brisement forcé, Sayre, L. A., 385; extra-capsular fracture in a knee formerly the seat of joint disease, but now entirely free from it, Sayre, L. A., 385; chronic inflammation of the knee-joint, Sayre, L. A., 386; anchylosis due to extra-capsular disease, Sayre, L. A., 387; treatment of Pott's disease by plaster-of-Paris jacket, Bradford, E. H., 459; spina bifida treated with plaster-of-Paris dressing, Sayre, L. A., 529; the leather jacket in the treatment of spinal curvature, Hunter, C. T., 582.
**Lyman, G. H.** Slight lacerations of the perinæum, 6; parotitis in fevers, 135; the treatment of the placenta in abortion, 300; cases in the service of Dr. Lyman, 319; two cases of hystero-neurosis, 440.

**McClean, A. S.** Infantile convulsions, 22.
**Magnus, H.** Examinations for color-blindness, 117.
**Malformations.** Cephalhæmatoma, Sabine, G. K., 251; case of cyclops, Galloupe, I. F., 495; malformation of left auricle, Roach, P., 598.
**Marine Hospital Service.** Annual report of the Marine Hospital Service, 109; metric system in the Marine Hospital Service, Hamilton, J. B., 546.
**Marion, H. E.** Extensive venous thrombosis, 350.
**Mason, A. L.** Cases at the Boston City Hospital, 81; recent progress in the theory and practice of medicine, 274, 295.
**Materia Medica and Therapeutics.** Eruption following the use of salicylate of soda, 22; the relation of drug manufacturers to the progress of therapeutics, Edes, R. T., 48, 60; antiquity of intra-uterine injections, Hosmer, A., 63; jaborandi, Child, W., 71; mechanical compression in orchitis, White, O. A., 99; suicide by chloral, suicide by cantharides, Brown, F. F., 197; antiseptic surgery, Lister, 116, 140; sixth decennial pharmacopœia convention, Morgan, J. E., 168; case of typhoid fever, and the so-called specific treatment, Bartholow, R., 169; recent progress of materia medica and pharmacy, Bolles, W. P., 198; use of hyoscyamia in insanity, Gray, J. P., 204; anæsthesia by ethyl bromide, Spear, E. D., Jr., 214; a new remedy in the treatment of diabetes, Dale, J. S., 216; the physiology of opium poisoning, Nivison, 224; the duty on quinine, 259; poisoning by oil of tansy, Jewett, G., 237; a new antiseptic, Beach, H. H. A., 249; the use of ergot, Wellington, W. W., 300; Edison's polyform, 400; the alcohol question from a medical point of view, 328; the inhalation of ethyl bromide for the relief of dyspnœa, Lawrence, R. M., 428; cultivation of the cinchona tree in California, 429; metric system, 546; hydrate of chloral, Kane, H. H., 429; uterine and vaginal injections, Richardson, W. L., 443; speculation in opium, 425; crude petroleum in asthma, Griffith, M. M., 453; decennial convention for revision of the Pharmacopœia, 474; treatment of Pott's disease by the plaster-of-Paris jacket, Bradford, E. H., 459; use of nitrous oxide gas in certain diseases of the nervous system, Hamilton, A. McL., 469; new method of intra-uterine medication, Battey, R., 477; recent progress in pharmaceutical preparations, Davenport, B. F., 514; bromide of ethyl, Roberts, J. B., 541; the proper use of the hot vaginal douche, Wing, C. E., 583; the prophylactic use of cod-liver oil, Thomson, W. H., 587; Vaseline ointments, Chandler, T. H., 599.
**Medical Schools and Colleges.** Bellevue Hospital Training School for Nurses, 16; Harvard University and female physicians, 88; the Johns Hopkins University and higher education, with a glance at the hospital buildings, Boylnd, G. H., 97; further progress in medical education (Harvard University), 377; prize essays, 478; Johns Hopkins University, 502; the physiological laboratory at Harvard, 497; Massachusetts College of Pharmacy, 594; medical education in the United States, Didama, H. D., 596.
**Metric System.** Use of the metric system, 162; metric system, 546; metric system in the Marine Hospital Service, Hamilton, J. B., 546.
**Millet, A.** Admission of women to the Massachusetts Medical Society, 358.
**Mind.** The commitment of the insane, Cushing, B., 32; use of hyoscyamia in insanity, Gray, J. P., 204; lunacy reform, 257; recent progress in insane asylum management, Channing, W., 243; cases of insanity and fanaticism, Folsom, C. F., 265; the study of psychological medicine, Channing, W., 315; non-restraint in English and Scotch asylums, Cowles, E., 374; insane asylums in the United States, 449; lecture on insanity, Folsom, C. F., 481; the commitment and certification of the insane, Fisher, T. W., 578; lunacy supervision, 599.
**Minot, F.** Rapid pulse and high temperature as symptoms of puerperal inflammation, 177; urgent vomiting in pregnancy, 302; pneumonia, sudden death, 398.
**Morgan, J. E.** Sixth decennial pharmacopœia convention, 168.
**Morrill, F. G.** A case of malignant disease of the uterus, 573.

**Nervous System.** Four cases of cerebro-spinal meningitis, Clark, F. C., 36; puerperal convulsions, Becker, A. R., 126; concussion of the spine, so called, Hodges, R. M., 132; myelitis, Webber, S. G., 157, 173; neurotomy, Williams, H. W., 226; treatment of paralysis in early life, Davis, H. G., 293; urgent vomiting in pregnancy, Minot, F., 302; partial paralysis and want of coördination from irritation of the genital organs, Sayre, L. A., 312; tumor of the cerebellum, Webber, S. G., 348; localized suppurative meningitis and softening without localized paralysis, Putnam, J. J., 349; a series of cases characterized by numbness of the hands, Putnam, J. J., 375; agoraphobia, Fisher, T. W., 375; hysterics, 382; two cases of hystero-neurosis, Lyman, G. H., 440; abscess of the brain, Edes, R. T., 447; use of nitrous oxide in certain diseases of the nervous system, Hamilton, A. McL., 469; puerperal tetanus, Green, C. M., 493; a case of tetanus, recovery after seven weeks, Field, C. C., 536; pseudo-muscular hypertrophy, Putnam, J. J., 538; cerebral hæmorrhage and fibrous tumors of uterus, Shattuck, G. C., 539.
**New Orleans.** Letter from New Orleans, the Auxiliary Sanitary Association, 189.
**New York.** A day in New York, 188; the New York State Board of Charities, 209; the administration of charities in New York, 353; letter from New York, 574.
**Nichols, A. H.** Rapid death in the early stages of diphtheria, 491.
**Nivison.** The physiology of opium poisoning, 224.
**Nose.** Nasal probes, Theobald, T., 333.
**Noyes, R. F.** Sewerage, 12.
**Nursing.** Registry for nurses, Putnam, C. P., 12; Bellevue Hospital Training School for Nurses, 16.

**Oliver, J. P.** The treatment of asthma, 238.
**Orthopædic Surgery.** Clinical lectures, Pott's disease of the spine, Sayre, L. A., 1, 145; club foot and hand, Bradford, E. H., 227; recent progress in orthopædic surgery, Bradford, E. H., 370.
**Otis, F. N.** Clinical lectures on the physiological pathology of syphilis, 121.

**Park, R.,** and Hatfield, M. P., the abuse of medical charities, 595.
**Parsons, J. W.** Death from narcotism, 334.
**Pathology.** Teratoma, Hosmer, A., 61; physiological pathology of syphilis, Otis, F. N., 121; monstrosity, Fitz, R. H., 135; pathological changes in septicæmia and pyæmia, Cutler, E. G., 302; recent progress in pathology and pathological anatomy, Cutler, E. G., 463, 485; case of cyclops, Gallouge, I. F., 495.
**Peckham, C. T.** Summary of important points in the Stannard case as established by medical evidence, 197.
**Pepper, William.** The treatment of asthma, 541.
**Peters, J. C.** The prevention of certain zymotic diseases, 225.
**Philadelphia.** Letters from Philadelphia, 69, 285.
**Physiology.** Sensibility of articular surfaces, James, W., 94; graphic method as applied to physiological investigations, Arnold, J. W. S., 109; physiological pathology of syphilis, Otis, F. N., 121; the cause of sleep, Smith W. E., 435; recent progress in physiology, Garland, G. M., 438.
**Poisons.** Inebriety, Anthony, W. E., 12; eruption following the use of salicylate of soda, 22; the Hayden case, Jewett, G., 148; country practice, lead poisoning, Child, W., 190; summary of important points in the Stannard case as established by medical evidence, Peckham, C. T., 197; the physiology of opium poisoning, Nivison, 224; poisoning by oil of tansy, 237; poisoning by arsenic, Wood, E. S., 325; death from narcotism, Parsons, T. W., 334; case of carbolic acid poisoning, Harris, F. A., 494.
**Polk, C. J.** Letter from Dr. Polk, Edes, R. T., 143.
**Porter, C. B.** Exstrophy of the bladder, 135; herniotomy, 227.
**Portland.** Letter from Portland, 20.
**Post, A.** Thomas's orthopædic splints, 374.
**Practice of Medicine.** Medical law, 13; country practice, 22; code of ethics, 40; medical ethics, Sargent, J., 45; Harvard University and female physicians, 88; the code of ethics, 155; the admission of women to the Massachusetts Medical Society, 157; ethics and women, 169; the proposed medical act, Hunt, D., 213; the code of ethics, 213; the admission of women to the Massachusetts Medical Society, Francis, G. E., 213; the admission of women to the Massachusetts Medical Society, Bronson, J. R., 213; the State (Illinois) Board of Health and the quacks, 235; medical practice and the profession, 233; seaside ethics, 236, 283, 309; the new code of ethics of the Massachusetts Medical Society, 256; the proposed law to regulate the practice of medicine in Massachusetts, 261; effects of the advocacy of the proposed medical law, 284; East Boston ethics (new code), 285; medical ethics, Whitney, J. O., 285; recent progress in the theory and practice of medicine, Mason, A. L., 274, 295; the new code, 351; the degree of doctor in medicine abroad, 332; argument of the counsel for the Social Science Association before the joint legislative committee on public health, 304; medical practice on the stage, 306; admission of women to the Massachusetts Medical Society, Millet, A., 358; the medical law of North Carolina, Bahnson, H. T., 580; sale of diplomas, 405; a dispensary in Cabul, 430; the admission of women to the Massachusetts Medical Society, 501; in regard to fees, Clark, H. G., 590.
**Pregnancy, Affections connected with.** Slight lacerations of the perinæum, Lyman, G. H., 6; recent progress in obstetrics, Richardson, W. L., 7; cystocele, Baker, W. H., 11; absence of amniotic fluid, Hamilton, S. N., 23; instrumental labor with rupture of the perinæum and laceration of the cervix, acute cystitis, Wellington, W. W., 61; puerperal convulsions, Becker, A. R., 126; rapid pulse and high temperature as symptoms of puerperal inflammation, Minot, F., 177; prolapsed funis, Garland, G. M., 227; malarial puerperal fever, Barker, F., 253; placenta diminidiata, Richardson, W. L., 275; the treatment of the placenta in abortion, Lyman, G. H., 300; the use of ergot, Wellington, W. W., 300; urgent vomiting in pregnancy, Minot, F., 302; case of abortion, with instrumental delivery and death on the fourth day following, Bush, J. F., 346; the placental site, Sawyer, E. W., 405; elastic ligature for the cord, Whitney, J. O., 406; cases at the Boston Lying-in Hospital, Richardson, W. L., 487; a new method of performing decapitation, Richardson, W. L., 518

puerperal convulsions with albuminuria, Sinclair, A. D., 444; puerperal tetanus, Green, C. M., 493; case of labor, with constriction of the internal os, Stone, L. R., 517; the forceps in relation to ruptures of the perinæum, Stedman, C. E., 517; a remarkable case of gastrotomy, Boyland, G. H., 593; the posture of women during labor, Engelmann, G. J., 598; diagnosis of the position of the child in utero, Whitney, J. O., 610.

**Putnam, C. P.** Registry for nurses, 12.

**Putnam, J. J.** Fibroid tumor of the uterus, 202; localized suppurative meningitis and softening with ot localized paralysis, 349; foreign body in the urethra, 375; a series of cases characterized by numbness of the hands, 575; pseudo-muscular hypertrophy, 558.

**Putnam, S.** Fatal use of the aspirator, 404.

**Respiratory System.** Recent progress in the treatment of thoracic diseases, Knight, F. I., 152, 171; endemic pleuro-pneumonia as seen in New York during the past ten or twelve years, Leaming, J. R., 245; the evil consequences of a neglected cold in the head, Roosa, D. B. St. J., 225; the treatment of asthma, Oliver, J. P., 238; fibroid phthisis, Shattuck, F. C., 240; the death of Washington, 281; cases of empyema, Cabot, A. T., 347; the principle of the siphon applied to thoracentesis, Garland, G. M., 375; empyema, Cabot, A. T., 376; the dangers of thoracentesis and injections into the pleural cavity, Knight, F. I., 397; pneumonia, sudden death, Minot, F., 398; the inhalation of ethyl iodide for the relief of dyspnœa, Lawrence, R. M., 428; remarkable resuscitation of asphyxiated new-born child, Forest, W. E., 429; crude petroleum in asthma, Griffith, M. M., 453; obscure local trouble in the region of the sternum in a child, Hodgdon, R. L., 518; empyema, antiseptic operation, Ayer, J. B., 539; the treatment of asthma, Pepper, W., 541; case of acute catarrhal pneumonia, followed by hydro-pneumothorax and extreme dislocation and rotation of the heart, Stedman, C. E., 606.

**Richardson, M. H.** Chronic interstitial nephritis, 375.

**Richardson, W. L.** Recent progress in obstetrics, 7; placenta diminidiata, 277; uterine and vaginal injections, 443; cases at the Boston Lying-In Hospital, 487; a new method of performing decapitation, 518.

**Roach, P.** Malformation of left auricle, 598.

**Roberts, J. B.** Bromide of ethyl, 541.

**Roosa, D. B. St. J.** The evil consequences of a neglected cold in the head, 225.

**Sabine, G. K.** Cephalhæmatoma, 251.

**St. Louis.** Letters from St. Louis, 454, 476.

**Sanger, E. F.** A case of litholapaxy, 200.

**Sargent, J.** Medical ethics, 45.

**Sawyer, E. W.** The placental site, 405.

**Sayre, L. A.** Clinical lectures on orthopædic surgery, Pott's disease of the spine, 1, 145; lateral curvature of the spine, 221; partial paralysis and want of coördination from irritation of the genital organs, 312; chronic disease and anchylosis of the knee-joint, 385; fibrous anchylosis successfully treated by brisement force, 385; extra-capsular abscess in a knee formerly the seat of joint disease, but now entirely free from it, 385; chronic inflammation of the knee-joint, 386; anchylosis due to extra-capsular disease, 387; spina bifida treated with plaster-of-Paris dressing, 529; psoas abscess in connection with Pott's disease, 529, 550; chronic disease of the wrist joint, 556; address before American Medical Association, 544.

**Seaverns, Joel.** One thousand deaths in a life insurance company, 341.

**Shattuck, F. C.** Fibroid phthisis, 240.

**Shattuck, G. C.** Cerebral hæmorrhage and fibrous tumors of uterus, 539.

**Sims, J. M.** Thomas Keith and ovariotomy, 221.

**Sinclair, A. D.** Puerperal convulsions, with albuminuria, 444.

**Smith, W. E.** The cause of sleep, 435.

**Societies.** Academy of Natural Sciences, biological and microscopical section, 18; American Laryngological Association, 559; American Medical Association, 88, 327, 524, 544, 549, 560, 574, 576, 584; American Medical Editors' Association, 552; Anatomical and Surgical Society (Brooklyn, N. Y.), annals, 207; Boston Medico-Psychological Society, 136; Boston Society for Medical Improvement, 38, 83, 132, 177, 226, 276, 323, 397, 445, 489, 538, 613; Boston Society for Medical Observation, 157, 173, 249, 321, 346, 374; Cincinnati Medical Society, 201; Connecticut Medical Society, 565; Connecticut River Valley Medical Association, 542; Iowa State Medical Society, 41, 59; Massachusetts Dental Society, 22; Massachusetts Medical Society, 155, 160, 256, 358, 501, 522, 570; Massachusetts Medico-Legal Society, 616; Medical Congresses at Amsterdam and Baden-Baden, 212; Missouri, Medical Association of the State of, 92; New Hampshire Medical Society, 89; New York Academy of Medicine, 109, 587; New York, Medical Society of the County of, 151, 409; New York, Medical Society of the State of, 203, 221; Obstetrical Society of Boston, 60, 360, 443, 517; Pennsylvania State Medical Society, 540; Rhode Island Medical Society, 12; St. Louis Medical Society, 19; St. Louis Obstetrical and Gynæcological Society, 19; Suffolk District Medical Society, 11, 130, 180, 278, 467, 492; White Mountain Medical Society, 205.

**Spear, E. D., Jr.** Anæsthesia by ethyl bromide, 214.

**Stedman, C. E.** The forceps in relation to ruptures of the perinæum, 517; a case of acute catarrhal pneumonia, followed by hydro-pneumothorax and extreme dislocation and rotation of the heart, 606.

**Stone, L. R.** Case of labor, with constriction of the internal os, 517.

**Streatfield, J. F.** Permanent closure of the palpebral aperture, 202.

**Sturgis, F. R.** So-called galloping syphilis, 224; affections of the middle ear during the early stages of syphilis, 551.

**Surgery.** Cases treated by the Lister method, Gay, G. W., 8; Gritti's supra-condyloid amputation of the thigh, Evans, J. H., 21; litholapaxy, Bigelow, H. J., 30, 38; antiseptic surgery, Beach, H. H. A., 35; surgical operations without ligatures, Warren, J. H., 44; litholapaxy, Caswell, E. T., 101; antiseptic surgery, Lister, 116, 140; re-fracture for the correction of deformity from the mal-union of bone, Gay, C. S. F., 126; Mr. Bryant and antiseptic surgery, Bryant, T., 258; recovery from severe injuries, Beach, H. H. A., 259; fatal use of the aspirator, Putnam, S., 404; Listerism in India, 430; operating table, Homans, J., 447; the radical cure of hernia, Warren, J. H., 492; fractures at the Rhode Island Hospital, Caswell, E. T., 505; recent progress in surgery, Beach, H. H. A., 585.

**Theobald, T.** Nasal probes, 333.

**Thomas, T. G.** Clinical lectures on diseases of women, 105.

**Thomson, W. H.** The prophylactic use of cod-liver oil, 587.

**Tumors.** Tumors upon the sternum, Bigelow, H. J., 217; fibroid tumor of the uterus, Putnam, J. J., 202; case of abdominal tumor with ascites, Adams, B. T. D., 517; cerebral hæmorrhage and fibrous tumors of the uterus, Shattuck, G. C., 539.

**Urinary System.** Litholapaxy, Bigelow, H. J., 30, 38, 217; litholapaxy, Caswell, E. T., 101; exstrophy of the bladder, Porter, C. B., 135; a case of litholapaxy, Sanger, E. F., 200; three cases of litholapaxy, Hill, H. E., 201; stone in the bladder, litholapaxy, 278; recent progress in urinary surgery, Curtis, T. B., 316; sacculated bladder, Draper, F. W., 323; albuminuria, Ellis, C., 323, 361, 388, 414; fibrinous renal calculi, Arnold, G. J., 348; foreign body in the urethra, Putnam, J. J., 375; chronic interstitial nephritis, Richardson, M. H., 375; puerperal convulsions, with albuminuria, Sinclair, A. D., 444; a case of pyelo-nephritis, Ham, O. F., 597; some of the symptoms of Bright's disease, Edes, R. T., 601.

**Wadsworth, O. F.** Peculiar affection of ocular muscles, 446; color-blindness, 526.

**Walton, G. L., and Witherle, C. B.** The ætiology of fever, 553.

**Warren, J. C.** The treatment of irreducible hernia, 271, 276.

**Warren, J. H.** Surgical operations without ligatures, 44; a new vermicular sound and catheter, 357; the radical cure of hernia, 492.

**Webber, S. G.** Myelitis, 157, 173; tumor of the cerebellum, 348.

**Webster, D.** Near sight in the young, 600.

**Wellington, W. W.** Instrumental labor, with rupture of the perinæum and laceration of the cervix, acute cystitis, 80; the use of ergot, 300.

**Wells, Frank.** Diphtheria with long period of incubation, 346.

**White, O. A.** Mechanical compression in orchitis, 99.

**Whitney, J. O.** Elastic ligature for the cord, 406; diagnosis of the position of the child in utero, 610.

**Wigglesworth, E.** Recent progress in dermatology and syphilis, 394, 419.

**Williams, F. H.** Determination of urea, 493.

**Williams, H. W.** Neurotomy of the optic and ciliary nerves as a substitute for enucleation of the eyeball, 73, 83; neurotomy, 226; glaucoma, 278.

**Wing, C. E.** On certain uterine displacements, 268; the proper use of the hot vaginal douche, 583.

**Witherle, C. B. and Walton, G. L.** The ætiology of fever, 553.

**Wood, E. S.** Poisoning by arsenic, 325.

**Wright, T. P.** Dislocation of the sternal end of the clavicle in a child ten months old, 333.
